## **ICSSR Sponsored One-Day National Seminar**

**on**

### **Society and Sustainability: Addressing Socio-Economic and Environmental Challenges in the North East Region of India**

**Organised by Bharati College, University of Delhi**

**29 November 2024 (Blended Mode)**

#### **Call for Papers**

Celebrating 78 years of independence, India must focus on sustainability and inclusive development across the nation, with particular emphasis on the unique socio-economic and environmental challenges in Northeast India. This region, comprising eight states, has diverse geographical, ecological, and cultural features. Its strategic location, bordering Bangladesh, Myanmar, and Bhutan, adds complexity to its socio-economic dynamics, making it crucial to address sustainability in a context-sensitive manner.

Northeast India is a tapestry of linguistic diversity, cultural richness, and unique historical narratives, yet it faces significant challenges in areas like accessibility, environmental conservation, and sustainable economic development. The seminar aims to bridge gaps in current scholarship, which often treats the region in a monolithic or discipline-specific manner. Through an interdisciplinary approach, the seminar will foster knowledge exchange, enhance methodologies, and expand theoretical frameworks to address sustainability holistically.

We invite original research contributions that address these themes or related topics:

#### **Key Themes:**

##### **Socio-Cultural Dynamics and Sustainable Development**

Understanding how cultural diversity and traditional knowledge contribute to sustainable practices.

##### **Economic Growth and Sustainable Livelihoods**

Exploring ways to foster economic development that supports long-term sustainability.

##### **Environmental Conservation and Climate Change Adaptation**

Examining the region's vulnerabilities to climate change and strategies for resilience.

### **Governance, Policy Frameworks, and Inclusive Development**

Examining the role of government policies, tribal rights, and resource management in safeguarding the livelihoods and food security of indigenous communities.

### **Indigenous Communities & Traditional Food Crops**

Infrastructure development in promoting inclusive growth and sustainability, with special attention to agricultural support for traditional grains and minor crops.

### **Gender, Society, and Economy**

Addressing gender-specific issues in socio-economic contexts and their impact on sustainability.

### **Sustainable Tourism and Cultural Preservation**

Exploring sustainable development of tourism while preserving the rich cultural heritage of Northeast India.

### **Impact of Migration on Sustainability**

Analysing how migration, both internal and external, affect sustainable development and resource allocation in the region.

### **Media, Representation, and Identity**

Investigating the role of media in shaping perceptions and influencing sustainable practices.

### **Land Rights, Movements, and Legal Frameworks**

Exploring land rights issues and legal frameworks that affect sustainable development.

### **History, Independence, and Regionalism**

Understanding historical influences on current socio-economic and environmental issues.

### **Community-Based Natural Resource Management**

Exploring how community-driven initiatives can support sustainable practices in regions like Northeast India.

### **Anthropocene, Climate Change, and Disaster Mitigation**

Focusing on disaster risk management in the context of environmental changes.

### **Sustainable Agriculture and Food Security**

Addressing the impact of climate change on agriculture and food security in the region.

### **Role of Traditional Knowledge and Education in Sustainable Development**

Leveraging indigenous knowledge systems for sustainable development practices.

### **Healthcare Infrastructure and Resources**

Assessing healthcare challenges and their implications for sustainable development.

### **Internet Accessibility and Last-Mile Connectivity**

Investigating technological challenges and opportunities for development.

### **Urban Development and Sustainable Cities**

Addressing challenges and opportunities for sustainable urban development in Northeast India's growing cities.

**Important Dates:**

Abstract Submission Deadline	<b>9 November, 2024</b>
Notification of Acceptance	<b>Within one week of abstract submission</b>
Last Date of Registration	<b>26 November, 2024</b>
Seminar Date	<b>29 November, 2024</b>

**Submission Guidelines:**

Abstracts of 250-300 words and a bio-note of not more than 50 words may be submitted in 12-point Times New Roman font to the following link: <https://forms.gle/icP9zz1t3iTeHodr9>

Authors must guarantee that their submissions are original, unpublished works and are not under consideration for publication elsewhere. They must also affirm that their contributions do not violate any copyright, trademark, or intellectual property rights of others. We look forward to your contributions.

**Note: Selected papers will be considered for publication in a peer-reviewed journal.**

**Registration Fees**

There is no registration fee for Bharati faculty and staff. The fee for participants from outside is INR 500.

**Contact Information**
